Equipping for Success on the Job and in Life in 5 Steps

Our free Fast Track job readiness and placement program helps advanced clients find a job more quickly. The curriculum is more advanced, and clients can graduate in five weeks - half the length of the Traditional program. Our resource center provides clients access to computers, telephones, internet and audiovisual equipment to assist with job searches. And our staff is there every step of the way of the process.

A Proven Approach

1. Referral

Clients are referred to JobsPlus by a church, agency or social service organization. If someone comes to us without a referral, we help them find one.

2. Intake Interview

Clients meet with one of our career counselors to talk about their background and to develop personal goals.

3. JobsPlus Club

Clients attend weekly JobsPlus Club meetings to receive life skills training, study Christian principles related to employment and connect with JobsPlus staff about their challenges and successes.

4. Job Readiness Seminar

Prior to beginning their job search, clients attend a two-day seminar that teaches the skills and values they need to find employment and succeed in the workplace.

5. Job Placement Interview/Job Search

After completing the seminar and the first two club meetings, clients meet again with their career counselor and can begin a full-time job search. The counselor and JobsPlus staff continue to support them during the search process.
